Medical Practice Management Software and Payment Solutions

WWW.MEDI-CONNECT.CO.ZA

INFO@MEDI-CONNECT.CO.ZA

Our Goal

Our company specialises in practice payment systems and practice management software.

To ensure the success of any practice, clinic or hospital, it is critical to make sure your patients are able to pay you for your services and to have a software that enables you to keep track of financials, patient clinical records, bookings, medical aid claims etc.

We are able to provide you with the above and help you reach your full potential.

Our Services

Speed Point Terminals

With exclusive transaction rates, our speed point terminals are designed to save the practice money on transaction fees.

Transaction fees (Ex VAT):

Debit/Cheque cards (VISA/MASTERCARD)	0.76%
Credit cards (VISA/MASTERCARD)	1.80%
Diners Cards	2.75%
American Express cards	2.50%

Interest-Free Patient Payment Plan

- 3-Month Interest Free Payment (Split into 3 equal payments)
- Practice Receives full amount in 7 days.
- Paperless and admin free for practice staff.
- Client approval rate of 82%
- Quick patient registration on our mobile app. Once the app is downloaded the full application takes an average of 2 minutes to complete and ready for first transaction.
- More than 200 000 active app users

Some of our retail clients making use of this system:

Logos for retail clients: EDGARS, PUMA, SEIKO, trappers, and LIZZARD. The LIZZARD logo includes the text 'CAPE UNION MART' and 'EST. 1973'.

RCS Retail Card Payments

With over 2 million active cardholders and R7 Billion of pre-approved credit for the South African market RCS retail card payments are a great way to enable your patients to pay you.

With this enabled your patients can make payments on your speed point device using their store cards from brands such as Edgars, Jet, Game, Builders Warehouse, CTM, Cape Union Mart, NWJ Jewelers, and many more.

Through MediConnect, RCS payments have overnight settlement to the practice and low transaction fees.

Debt Collection

Our debt collection specialists have over 30 years experience in medical debt collection. We know how important the doctor-patient relationship is and handle each case accordingly to protect this relationship.

There is no settlement fee for our debt collection service, meaning that 100% of the debt collected is paid to the practice, we do not take any cut from this amount.

Important to note: our payment methods do not cause any debt issues since all our payment methods are guaranteed payments. This service is if you already have debt issues from clients or have other payment methods outside of MediConnect that cause bad debt.

Practice Management System

Our software is a complete practice and clinical system for doctors and has a built-in switch to medical aids, therefore the practice does not pay per line to medical aids but rather per the whole claim, making it more cost-effective.

Our practice management software has been one of the market leaders in medical practice management systems for the last 35 years.

Key features:

- Web Base Software
- Electronic Medical Records (ERA) System
- Paperless Capability
- Customizable Clinical Templates
- Fully Integrated Diary

- Online Booking System
- Built-In Switch To Medical Aids and real-time validation)
